

MY TRAVEL IN ENGLAND

On May 20th 2019,

On April 7th 2019, the students of the european classes including myself, left our parents for 5 days in England. We were staying in host family in the city of Weston-super-mare in the south west of England. The morning, we had 3 hours of english class with english teachers and in the afternoon we visited a city. We went to Windsor, Bristol, Saint Fagans in Wales, Bath and of course London.

This trip was my second time in England and it was much better than the first one. Also because I was able to go to Wales and saw a different region of England but also because I was with real friends and I think this is really important. I don't really know if I can choose my favorite day or moment because for me, it was a really good trip. Even the english class was interesting but we didn't learn a lot because it was only some recaps. My host family was very nice too, they were really happy to speak with us. Besides, on the last day, he made an english breakfast which was delicious.

The food was not very bad, of course we ate the famous fish and chips and for the first time, I tasted a cream tea which was good but too heavy, but the tea was delightful.

The food was not very bad, of course we ate the famous fish and chips and for the first time, I tasted a cream tea which was good but too heavy, but the tea was delightful.

Finally, I think that the day that I will never forget, is when we went to the Saint Fagans's museum because weather was really good, and the museum was an open space with a lot of vegetations and forest.

I really appreciate the fact that we could visit freely the museum by ourself and after that our host family brought us to the beach.

So, thanks to the professors for organizing such a beautiful and unforgettable trip.
