

## Our best memory of our trip in England

Our favorite day was the first day in England when we visited the Windsor Castle. We visited it just after our first fish and chips.

In the castle, we have seen the Queen Mary's Dolls House and St George's Chapel. We have also observed the famous British guards who have to stay motionless for hours.

The Castle was very impressive and magnificent. In the garden, we have seen many squirrels. We have taken many beautiful pictures during this day.

The castle was really well preserved and we agree to say that it was the most beautiful place we have seen during our trip. We were lucky because during this day the weather was really cool.
