

RB3D Company

RB3D is a company of exoskeleton witch was fouded in 2001 by Serge Grygorowicz. The company created his first Cobot in 2008 and his first exoskeleton in 2009. They make three kind of exoskeleton :

- the Exoback for the very heavy charges
- the Exopush witch assists while finishing stains
- the Exoviti witch allows alleviation the back in the vines.

We had the pleasure to have been very well received by Mr Grygorowicz, who made us discover his company and prepared us a snack. Thanks to him, his staff members, along Mrs Juillion for allowed us to discover this company.
